

CCNA 200-301 v1.1 Lab Setup Guide

For this class you will need:

- Course Activity Files
- A free Cisco Networking Academy account
- Cisco Packet Tracer

Packet Tracer is a free network simulation tool that we will use for activities in this course. To obtain it, you must sign up for a free Networking Academy account. When you start Packet Tracer, you will be prompted to log in with this account. To obtain both an account and Packet Tracer, follow these steps:

1. Open a browser to <https://netacad.com>.
2. On the home page, in the upper-right corner, click **Login**.
3. On the **Welcome** page, click **Sign up**.
4. On the **Sign Up** page, enter your information and click **Continue**.
5. Under **Create New Account**, continue to enter your information and click **Create account**.
IMPORTANT: Record your username and password! Packet Tracer will require you to log in when you open it!
6. On the **Terms & Conditions** popup page, tick (check) the checkbox **I have read and agreed to the terms & conditions**.
7. Click **Accept & Continue**.
8. On the **My Learning** page, in the Search bar, enter *packet tracer*
9. From the suggestions list, select **Getting Started with Cisco Packet Tracer**
10. On the **Getting Started with Cisco Packet Tracer** page, click **Get Started With Self-Paced**.
11. On the left side, in the navigation pane, under **1.0. Install Cisco Packet Tracer**, click **1.0.3 Download Cisco Packet Tracer**.
12. Under **1.0.3 Download Cisco Packet Tracer**, click the link
<https://www.netacad.com/resources/lab-downloads>
13. On the NetAcad resources page, scroll down, and in the **Learning Resources** section, select and download your desired version of Packet Tracer.
14. Once downloaded, launch the Packet Tracer installer, and follow the install wizard.
15. Packet Tracer should start automatically. If not, start it.
16. On the Cisco Packet Tracer sign in popup page, click (turn on) the toggle button **Keep me logged in (for 3 months)**.
17. Click **CISCO Skills For All**.
18. Enter your email and click **Login**.
19. Enter your password and click **Login**.
20. Close the browser window and verify that Packet Tracer is open and ready to use.

Congratulations! You are ready for the course labs!
